

Fond du Lac Tribal and Community College

COURSE OUTLINE

Date submitted: 04/15/08 Date approved: 05/09/08

Department and Course Number: CDEP 2010

Title of Course: Adolescent Chemical Dependency Assessment & Treatment

Number of credits: Lecture 3 Lab

Catalog/Course Description:

The course is designed to provide an overview of current identification, assessment, treatment and research methods most widely used in the intervention and recovery process for adolescents with substance abuse disorders. The course will discuss the continuum of care from the initial identification through aftercare. It is intended to give the student information regarding the formal and legal responsibilities concerning the assessment and treatment process as well as awareness of and insight into the current instruments and methods used to assist the adolescent in their recovery.

List Course Prerequisites (including placement for success)

Prerequisite: PSYC 1030 Drug Use & Abuse, CDEP 2001 Introduction to Addictive Behavior

Recommended course materials and resources, e.g. textbooks, workbooks, study guides, lab manuals, videos, guest lecturers. If applicable.

- Adolescent Substance Abuse Disorders by Robert Perkinson
- Screening and Assessing Adolescents for Substance Use Disorders, TIP Series
