

# Companion document for Video #1: What is North Star?

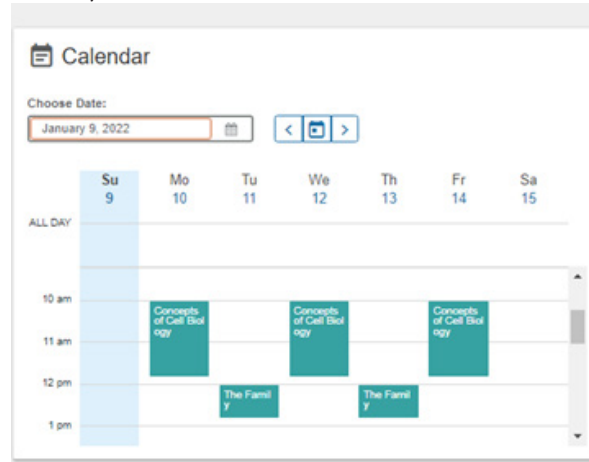

As a student at FDLTCC, you will find that you will have a strong support network to help you succeed.

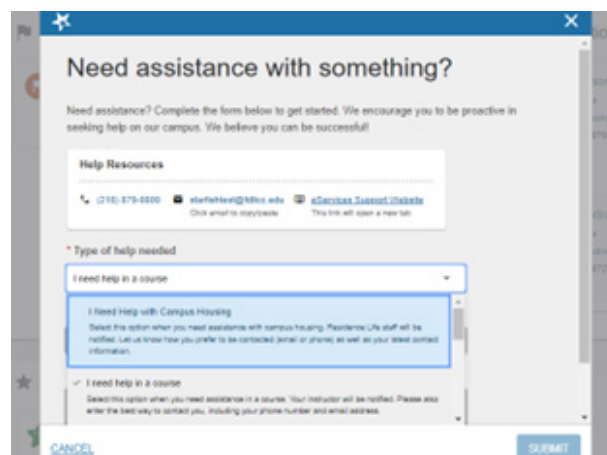

North Star is a platform that connects students with their faculty, advisors, and other support staff to help you thrive in and out of the classroom.

## In North Star, you can:

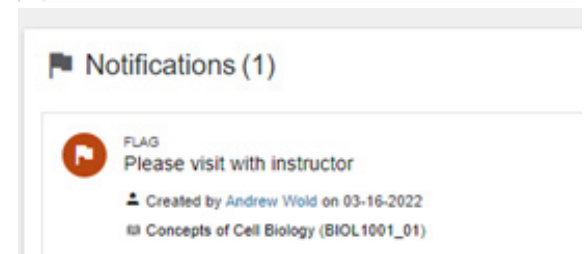

1. View your class schedule.

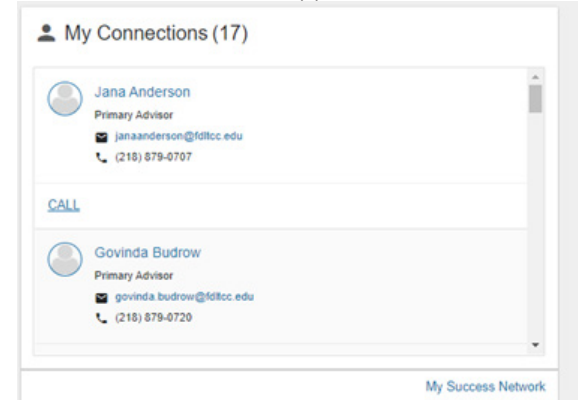

2. Use the “raise your hand” feature to notify an instructor if you need assistance with your class, or ask for referrals to financial aid, the tutoring center, and more.

3. Receive notifications from an instructor about your progress in a class.

4. View your campus connections such as advisors and instructors, along with their contact information and links to schedule an appointment.

5. Finally, find information for campus services (like the bookstore, disability services, and financial aid).
