

EDU 3125

What do you believe your instructor has done especially well in teaching this course?

Created a positive learning environment.

The course was well organized. I knew what was expected of me each week. The instructor brought a great variety of course materials to help with understanding each modules learning concepts. The instructor brought indigenous teachings into each module which mirrored the expectation of the course and program learning goals..

What do you believe your instructor might do to improve the teaching of this course?

n/a

All of the information was great, each week the learning expectations were listed twice (once on the homepage and again in the course). I think if there was a short welcome/expectation to the week's learning and a link to the week's module in the course that would eliminate the repetition.

EDU 1020 Both Sections

What do you believe your instructor has done especially well in teaching this course?

Answering any questions and helping out

she gives us enough time to do work and really good at feedback

The layout and videos were amazing

Provided useful information

Constructive Encouragement, present/available- good mentor

Taught me very well

was respectful and cared about my education and wanted me to succeed

Jess is great at emphasizing clear expectations for this course and she makes it her mission to provide us with all the tools we need to succeed! She is also great at communication.

What do you believe your instructor might do to improve the teaching of this course?

Honestly I have 0 complaints

i'm not sure she's really a good professor

It's a well delivered course , I'm sure there's room for improvement somewhere but right now? Why fix it if it's not broke? 😊

Organize D2L- I like the checklists on this semesters course 😊

Hands on cultural activity(ies) related to lessons

Keep doing the online videos so students know what they are doing on the assignments

class was amazing. I wouldnt change anything.

This course is already layed out great with a lot of meaningful learning material! If I had to think of something to improve I would maybe say more perspectives from the community, having something like a guest speaker to share their stories.
